Please note that :

1. SP500 : S&P 500 american index in Canadian dollars

TSX60 : S&P/TSX 60 index

DYNC : Dynamic Value Fund of Canada, Series A

DYNA : Dynamic American Fund, Series A

AGFD : AGF Dividend Income Fund, MF Series

2. Value at start is equal to the average of index or unit value upon closing four business days prior to the issue date.

3. This value corresponds to the most recent index or unit value available on the last business day where La Capitale's Head Office is open.

4. Value at end is equal to the average of index or unit value upon closing of the last four months of the last year of investment, to the given date corresponding to the date of issue or the preceding business date if those days are not business days.

5. The annual rate of return on the fixed component is not the total rate of return credited upon maturity since the return on the variable component portion also influences the total rate of return credited upon maturity.
